ecologically collects the birch water straight  
from the trees into the bottle.**

- ✓ Additive free
- ✓ Preservative free
- ✓ Vegan friendly
- ✓ Long shelf-life
- ✓ Assured quality
- ✓ Advanced traceability

## From the Arctic Forests of Finland

Birch Water is a low sugar bioactive fluid, with minerals, trace elements and other biologically active substances. It stimulates the metabolism and detoxes the body. An excellent choice for weight loss or to rehydrate on days of fatigue. *It is the perfect choice for a healthier life!*

## Nature's own health treatment from Finland

This precious resource can only be collected for 3 weeks every year at the end of Winter. The groundwater is absorbed by the birch roots and filled with nutrients from the tree, making it a truly organic and extremely healthy drink.

## Nordic Koivu Birch Water Natural Elixir for Health
